Barnes and Noble College Blackboard Integration

Linking Blackboard to FacultyEnlight (1st time cross-over)

Step 1: Login to Blackboard with your faculty credentials.
Step 2: Choose the course you are teaching from your dashboard.
Step 3: After clicking on your course, you will see the following links:

- Research & Adopt Course Materials – clicking on this link will open a new window, and prompt you to sign in or create an account with FacultyEnlight. After the initial pairing, you will not be required to sign in when accessing the link through Blackboard.
- Purchase Course Materials – clicking this link will take your students to the campus bookstore, and prompt them to sign in or create a bookstore account to purchase course materials. The course materials you adopted will appear here in all the available formats (new, used, rental, digital).
- Access Digital Materials – clicking this link will take you to Yuzu, our digital education platform. This is where students who purchased the digital option can access their course materials.

Step 4: Click on Research & Adopt Course Materials

- You will now be redirected to FacultyEnlight.

Step 5: Login with your FacultyEnlight username and password.

- Your course information will auto-populate to match the course you chose in Blackboard.

Step 6: Your Blackboard account is now paired with FacultyEnlight
